## Concept

Sealing wax holds a spell at the very moment melted wax meets a sigil and the story is fixed. In “Sealing Alchemy,” visitors select heads, wax colors, and paper goods as if compounding a recipe, then finish with a press that casts a small charm on letters and gifts. The Shibuya sales floor is staged as an otherworldly atelier—bringing together the practicality of tools with the joy of ornament.

## Product Highlights

### Sealing stamp tools

Edited selection of heads, handles, and sealing wax (pellets/beads), along with handy accessories. Layer colors or add metallic powder to create a three-dimensional crest.

### Wood box sets

Gift-ready boxed sets. A complete starter configuration that works the moment you open the lid.

### FN Set (Green only)

A Fairy{note.} set-up in the brand’s tone—an easy “story color” for everyday use. Pairs smoothly with planners, cards, and tags.

### Glass pen “Legato”
